Broadway Baptist.

The Broadway Baptist Young Ladies will meet Tuesday afternoon with Miss Clara Morgan.

## WHAT \$10 DID FOR THIS WOMAN

The Price She Paid for Lydia E. Pinkham's Vegetable Compound Which Brought Good Health.

Danville, Va.—"I have only spent ten dollars on your medicine and I feel so much better than I did when the doctor was treating me. I don't suffer any bearing down pains at all now and I sleep well. I cannot say enough for Lydia E. Pinkham's Vegetable Compound and Liver Pills as they have done so much for me. I am enjoying good health now and owe it all to your remedies. I take pleasure in telling my friends and neighbors about them."—Mrs. MATTIE HALEY, 501 Colquhoun Street, Danville, Va.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

### HANDLING DAMP WHEAT BY MIXING

Washington, D. C., Aug. 30.—Much of the new crop of wheat as delivered from the farm this year has a high moisture content which, if put into storage without special treatment is very likely to cause trouble by becoming musty and hot.

By mixing high-moisture and low-moisture wheat together, a method whereby part of the damp wheat of this year's crop can be put into good condition, was demonstrated in an experiment at Baltimore which was directed by a grain standardization specialist of the department of agriculture in co-operation with the Gambrill Manufacturing Company of the same city.

The experiment described was performed to determine if it would be possible or feasible to handle damp wheat in such a way that it would not be necessary to put it through a commercial drier and yet insure its keeping safely in storage or during shipment.

For this experiment one car of Pacific Coast white wheat containing 1098 bushels, was mixed with one car of Eastern red winter wheat containing 1126 bushels, and put into storage in an elevator bin. On July 29, samples taken from the white wheat while it was still in the car, tested 9.7 per cent in moisture. Samples taken from the red wheat on July 31, while this wheat was also still in the car, tested 15.1 per cent. These wheats were thoroughly mixed on August 3, and the mixture was then put into storage in an elevator bin and allowed to remain there until August 6, when it was transferred to another bin. Samples taken from the wheat at the time it was transferred, tested 12.9 per cent moisture for the red wheat and 12.2 per cent for the white wheat. The wheat was allowed to remain in the second bin until August 10 when it was transferred to a third bin. Samples taken at this time showed that the moisture content of the red wheat was 12.5 per cent and of the white wheat 12 per cent. While the grain was still in the cars, the red wheat tested higher in moisture by 5.4 per cent than the white wheat. By August 6, or three days after the wheats were mixed, enough of the moisture from the damp wheat had been transferred to the dry wheat, so that the difference in their moisture content at that time was only seven-tenths of one per cent. By August 10, or one week after the wheats had been mixed, the difference in their moisture contents had been reduced to only one-half of one per cent.

In order to have a record of the temperature changes in the grain during this experiment, four electrical thermometers were placed at different depths in the bin into which the mixture was run. No appreciable change in temperature was noticed during the transfer of the moisture from the red to the white wheat.

The mixing of damp and dry wheat will facilitate the handling of the wet wheat this year. The miller who buys wet wheat and has some dry wheat to mix with it, can obviate some of the extra work in handling the damp wheat to keep it in condition and also get it in shape for milling by mixing

# Paxtine

A Soluble Antiseptic Powder to be dissolved in water as needed For Douches

In the local treatment of woman's ills, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been relieved say it is "worth its weight in gold." At drugists, the large box or by mail. Sample free. The Paxton Toilet Co., Boston, Mass.

the two wheats together for a few days. This will also do away with part of the extra work in drying. One car of wheat can be dried down to a low moisture content and then mixed with another car of high moisture content wheat, and time and labor be saved. If the mills or elevators are equipped so that they can mix and dry at the same time, this method will greatly increase their capacity for taking care of large quantities of damp wheat.

Tired, Aching Muscles Relieved.

Hard work, over-exercising, mean stiff, sore muscles. Sloan's Liniment lightly applied, a little quiet, and your soreness disappears like magic. "Nothing ever helped like your Sloan's Liniment. I can never thank you enough," writes one grateful user. Stops suffering, aches and pains. An excellent counter-irritant, better and cleaner than mustard. All Drugists 25c. Get a bottle today. Penetrates without rubbing.

**GALVESTON FLOOD PICTURES**

Will Be at the Royal and Airdome Wednesday

Several great calamities have befallen different parts of the country during the past fifteen years. Some of them have been photographed and shown on the screen, a great many others have not. One of recent date, and which is still fresh in the minds of the people not only in Texas, but in neighboring states, is the Galveston flood which nearly swept the city away about ten days ago. Several good pictures were taken of the scenes in and around Galveston, these have been made into moving pictures and will be shown at the Royal and Airdome on Wednesday of this week. This will be interesting news to many Ardmore citizens, as they have a particular interest in the doings of Texas. The admission price will be just the same, 5 and 10 cents.

The Clerk Guaranteed It.

"A customer came into my store one other day and said to one of my clerks, 'have you anything that will cure diarrhoea?' and my clerk went and got him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and said to him, 'if this does not cure you, I will not charge you a cent for it.' So he took it home and came back in a day or two and said he was cured," writes J. H. Berry & Co., Salt Creek, Va. Obtainable everywhere.

**CHARGES AGAINST CITY OFFICIALS**

Sapulpa, Okla., Aug. 30.—Charges of misconduct in office were filed in district court Saturday morning against W. E. Nicodemus, president of the board of trustees of Drumright; A. B. Rockhold, justice of the peace in that district; J. R. Brought, constable; James Rippey, policeman, and William Maxwell, chief of police.

The charges were filed in three separate counts and sworn to by S. S. Paden, O. G. Williams, J. W. Fulkerson, citizens of Drumright. They secured a writ from District Judge Hughes and took the petition for temporary suspension direct to the supreme court of the state. The misconduct charged against the city officials involves the prohibitory and gambling laws of the state.

A Cough Remedy That Relieves

It's prepared from the healing Pine Balsam, Tar and Honey—all mixed in a pleasant, soothing Cough Syrup called Dr. Bell's Pine-Tar-Honey. Thousands have benefited by its use—no need of your enduring that annoying Cough or risking a dangerous Cold. Go to your dealer, ask for a 25c original bottle Dr. Bell's Pine-Tar-Honey, start using at once, and get rid of your Cough and Cold.

**AUGUST 30 IN HISTORY**

1660—Marquis de Fouquieres assumed office as viceroy of New France.

1708—French and Indians attacked and burned Haverhill, Mass.

1730—Jonathan Belcher became governor of Massachusetts and New Hampshire.

1776—Long Island was evacuated by the Americans.

1862—Confederates victorious in the second battle of Bull Run.

For a Sprained Ankle.

If you will get a bottle of Chamberlain's Liniment and observe the directions given therewith, faithfully, you will recover in much less time than is usually required. Obtainable everywhere.

**THE MONTESSORI MOVEMENT**

The Montessori movement, considered by many a radical departure from traditional educational methods, is reviewed by Miss Anne E. George in the annual report of the U. S. commissioner of education recently issued. The method is summed up as "freedom for development of the child under best conditions, disturbing as little as possible but helping by every means this development."

Dr. Montessori's particular contribution to the world, according to Miss George, has been that of applying the methods of experimental science to the study of man. The Montessori "didactic material," it is explained, tends to replace the teacher at the earliest stage of education and to make it possible for the child to accomplish his first work independently of a mature mind. "Out of such experiments and the environment that Dr. Montessori establishes," declares Miss George, "she confidently expects others to bring fresh facts, and to build up the content of scientific pedagogy through a method research, limited by no personality, allied solely to human beings who develop in liberty."

As an instance of the crystallization of sentiment and effort in connection with the Montessori movement, Miss George describes the organization in May, 1913, at Washington, of the Montessori Educational association, formed "to promote and develop in America the educational movement based on the principles and theories of Dr. Montessori, and to assist in the establishment and maintenance of schools for children, and schools of observation and practice conducted according to these principles." This association now numbers approximately 700 members.

This review of Miss George's is the third publication issued recently by the U. S. Bureau of Education on the Montessori system. Within the past two years the bureau has published a bulletin on Montessori's characteristics

## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble.

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 124

teaching as set forth in her book (Bulletin, 1912, No. 17), and also a bulletin containing a comparison between the Montessori method and that of the kindergarten (Bulletin, 1914, No. 28).

\$5.00 IN GOLD.

Will be given away to the party who writes the best article on the qualities of Dodge Bros.' Cars, mailed to me by August 30, 1915.

P. P. KEARNEY, Agent.

20tf Ardmore, Okla.

If you sit in a cool draft when you are heated and get a stiff neck or lame back, you will be looking for something that will ease the pain. Fix your mind on BALLARD'S SNOW LINIMENT and don't be talked out of it, because it is the best pain relieving liniment you can get anywhere. Price 25c, 50c and \$1.00 per bottle. Sold by Bomar Drug Co.
